

# Our Contributors Make It All Possible

Every year the Salish Sea Experience field trip was made possible for every interested school regardless of ability to pay. This was only because of the generosity of many contributors. These grants and donations covered over 40% of the total cost of the field trips creating opportunities for parents and students to experience our natural world together in a way that would not be possible to them otherwise. I would like to express my deepest gratitude along with the parents, students, and teachers, to all contributors for making this field trip possible to so many over so many years.

## Cost of a Field Trip

The costs of trips vary from \$3,000 for smaller schools only requiring one bus and one car for emergencies to \$4,500 for larger schools requiring two buses and extra vehicles to transport chaperones beyond the emergency vehicle. The cost of the trip includes:

School bus and driver for the day

Ferry fare for bus, vehicles, and all participants

Coordinator fee and support for second bus on larger trips

Presenter fees

Healthy morning snack and substantial afternoon snack

Activity guide

Insurance

MEMORIES GALORE!
